ORCID

NOT ORCHID

Merle Rosenzweig
Taubman Health Sciences Library
ORCID:<http://orcid.org/0000-0003-4422-5490>

AUTHOR NAME AMBIGUITY

- Of the more than 6 million authors in a major database of journal citations and abstracts, more than two-thirds share a last name and single initial with another author.
- Among the thousands of authors publishing all over the world, some have distinctive surnames; some publish under multiple names—J.A.S. Sørensen, J.Aa. S. Sørensen, J.Åge S. Sørensen, J. Aage S. Sørensen, J. Åge Smærup Sørensen or J. Aage Smaerup Sørensen.
- Authors may experience a name change due to marriage or divorce.
- Numerous authors have names that can be similar to one another or even precisely the same.
- A search in PubMed for the author “lee j” retrieves over 57709.
- A researcher’s name is insufficient to reliably identify the author of, or contributor to, an article published in a journal or in a dataset uploaded to a repository.

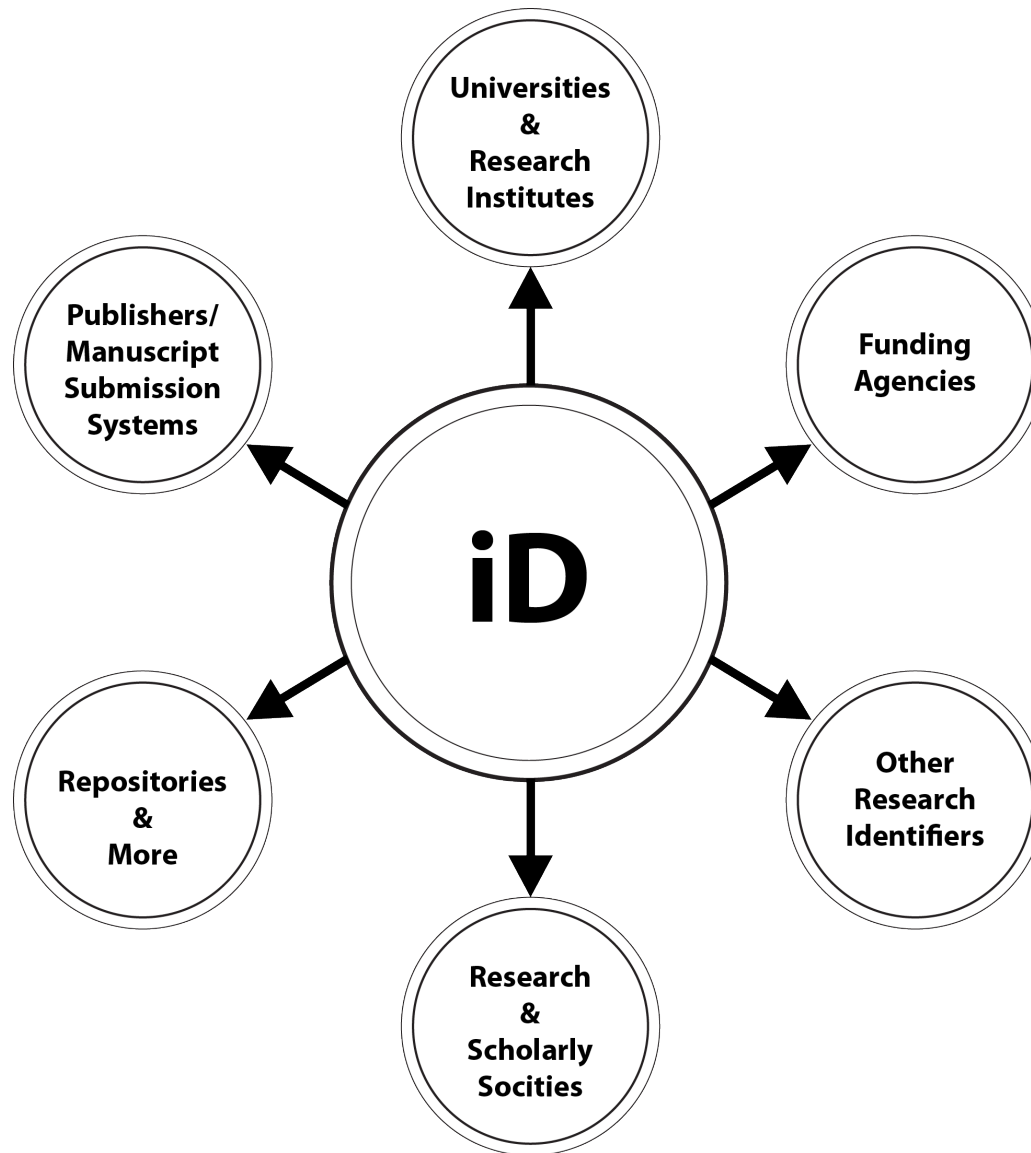

Open Researcher and Contributor ID (ORCID)

- An open, non-profit initiative that provides a registry of unique researcher identifiers.
- ORCID distinguishes a specific researcher's work from that of other researchers.
- ORCIDs are indicated as URLs with a 16-digit machine-readable identifier --<http://orcid.org/0000-0002-9793-535X>.
- ORCID distinguishes an individual scientist and author in much the same way that a Digital Object Identifier (DOI) uniquely identifies a paper, book or other scholarly publication.

ORCID is a hub connecting the research landscape.

Getting An ORCID

Registering is FREE

<http://orcid.org/>

1

REGISTER

Get your unique ORCID identifier [Register now!](#)
Registration takes 30 seconds.

2

ADD YOUR INFO

Enhance your ORCID record with your professional information and link to your other identifiers (such as Scopus or ResearcherID or LinkedIn).

3

USE YOUR ORCID ID

Include your ORCID identifier on your Webpage, when you submit publications, apply for grants, and in any research workflow to ensure you get credit for your work.

Donna Martin

iD

http://orcid.org/0000-0002-8070-2007

Other IDs:

Scopus Author ID: 35517455800

Education

The University of Michigan (1992 to 1996)

M.D.

The University of Michigan (1988 to 1992)

Ph.D.

Michigan Technological University College of Science and Arts (1983 to 1987)

B.S.

Employment

The University of Michigan (2001 to present)

Associate Professor

Funding

Developmental Mechanisms of the Chromodomain Gene Chd7: National Institute on Deafness and Other Communication Disorders (2008-04 to 2018-11)

Pitx2 Function in Developing Mouse Brain Neurons: National Institute of Neurological Disorders and Stroke (2007-02 to 2012-01)

Role of Pitx2 in the Mammalian Central Nervous System: National Institute of Child Health and Human Development (2001-07 to 2006-06)

Works

Age-related effect of serotonin transporter genotype on amygdala and prefrontal cortex function in adolescence 2014

Adjusting head circumference for covariates in autism: Clinical correlates of a highly heritable continuous trait 2013

C-terminals in the mouse branchiomotor nuclei originate from the magnocellular reticular formation 2013

ORCID in Practice

Government Granting Agencies

- Office of Scientific and Technical Information (OSTI) has modified the E-Link, the DOE processing system to include researchers' ORCIDs in their submitted records.
- The National Institutes of Health (NIH) are embedding ORCIDs into grant application workflows.
- Wellcome Trust is integrating ORCIDs into its online grant application and reporting systems.

Publishers

- Elsevier has integrated ORCID into many of its products and services.
 - Elsevier's Scopus database provides a live link to an author's ORCID profile.
- Nature Publishing Group (NPG) has incorporated ORCIDs into its manuscript submission workflow.
- Proceedings of the National Academy of Sciences USA (PNAS) encourages authors with an ORCID to supply it with their manuscript submission.
- When an author of an article in a BioMed Central journal submits an ORCID along with the submission of a manuscript, it appears in the online version in the Acknowledgements

Databases & Institutional Repositories

- PubMed and Medline XML (Extensible Markup Language) and DTD (Document Type Definition) are now accommodating ORCIDs.
- Thomson Reuters ResearcherID and ORCID are complementary attribution identifiers.
- ORCID has been integrated into DuraSpace (DSpace), a software program utilized by academic, non-profit, and commercial organizations building open digital repositories.

 AB - The interface between the blood circulation and the neural tissue features unique characteristics that are encompassed by the term 'blood-brain barrier' (BBB). The main functions of this barrier, namely maintenance of brain homeostasis, regulation of influx and efflux transport, and protection from harm, are determined by its specialized multicellular structure. Every constituent cell type makes an indispensable contribution to the BBB's integrity. But if one member of the BBB fails, and as a result the barrier breaks down, there can be dramatic consequences and neuroinflammation and neurodegeneration can occur. In this Review, we highlight recently gained mechanistic insights into the development and maintenance of the BBB. We then discuss how BBB disruption can cause or contribute to neurological disease. Finally, we examine how this knowledge can be used to explore new possibilities for BBB repair.

RESEARCHERID

ORCID

Did you know you can associate your ORCID ID with your ResearcherID account?

- ☒ I would like to create an ORCID record
- ☐ I already have an ORCID record
- ☐ No, thank you

The Open Researcher and Contributor ID (ORCID, Inc.) is a non-profit organization that aims to solve the author/contributor name ambiguity problem in scholarly communication by creating a central registry of unique identifiers. These identifiers can be used within various systems you may interact with in your professional research workflow, including manuscript submission, etc.

By creating an ORCID you will be able to link your ResearcherID account with this centralized registry.

Learn more about [ORCID](#).

If you choose not to get or associate an ORCID, you can do it at a later time.
